Presenting

A Shark Tank–style investor pitch for a fictional Indian agritech startup, developed as part of the Business Economics curriculum.

AGRITECH VC PITCH FARM-TO-CONSUMER

BHEESHMA ORGANICS

"Grow What People Need. Buy What You Can Trust."

A Data-Driven Farm-to-Consumer Ecosystem

The Problem: Two Sides of the Same Disconnect

👨‍🌾 Farmers

- Limited direct access to consumers
- Dependence on traditional supply chains
- Uncertainty about future demand
- Risk of overproduction and low prices
- Limited market intelligence

👨‍👩‍👧 Consumers

- Difficulty verifying organic claims
- Limited farm and farmer information
- Uncertainty about product quality
- Limited traceability
- Desire for trustworthy food

> "Farmers don't always know what the market needs, while consumers don't always know what they are buying."

Our Solution: The Bheeshma Organics Ecosystem

FARMER → BHEESHMA ORGANICS → CONSUMER

Farmer Connection
Direct market access for verified organic farmers

Quality & Residue Testing
Scientifically verified safety and organic standards

Traceability
Batch-level transparency from farm to doorstep

Demand Intelligence
Consumer data fuels smarter crop planning insights

"Better information for farmers. Better trust for consumers."

How It Works: From Farm to Table — With Data

Circular Feedback Loop: Consumer Demand → Data Analysis → Crop Recommendation → Future Production → Consumer

"Today's consumer demand helps shape tomorrow's crop planning."

Target Customers: Who We Serve

Primary Consumers

- Health-conscious families
- Urban consumers
- Working professionals
- Organic food buyers

B2B Customers

- Restaurants, Hotels, Cafés
- Institutional buyers

Supply-Side Partners

- Verified organic farmers
- Farmer Producer Organizations (FPOs)
- Organic farming groups

Expansion Path: Maharashtra → Major Indian Cities → Pan-India

Market Opportunity: A Large & Growing Ecosystem

Why Now?

- India has a massive agricultural ecosystem with millions of farmers
- Urban consumers increasingly value convenience and transparency
- Digital commerce enables direct farm-to-consumer models
- Consumer demand for traceability is rising steadily
- Organic agriculture is an established and rapidly growing sector

4.39M

Tonnes Produced

Reported organic production in 2024–25 under India's National Programme for Organic Production

₹↑

Growing Demand

Urban consumers shifting toward verified, traceable, and certified organic produce

Business Model: How We Make Money

1

Transaction Commission

Percentage earned from each successful produce sale on the platform

2

B2B Supply

Bulk supply contracts with restaurants, hotels, cafés, and institutions

3

Delivery & Service Fees

Service or delivery charges applied where applicable

4

Premium Farmer Intelligence

Advanced demand analytics and crop-planning advisory services for farmers

Illustrative Transaction Example

₹200 Customer Payment → **₹160** Farmer Receives → **₹40** Platform Gross Commission

Illustrative example only — not actual revenue or final operating margin. Figures are for demonstration purposes.

Competitive Advantage: Our Unique Model

Existing Farm-Direct Model

Farmer → Platform → Consumer

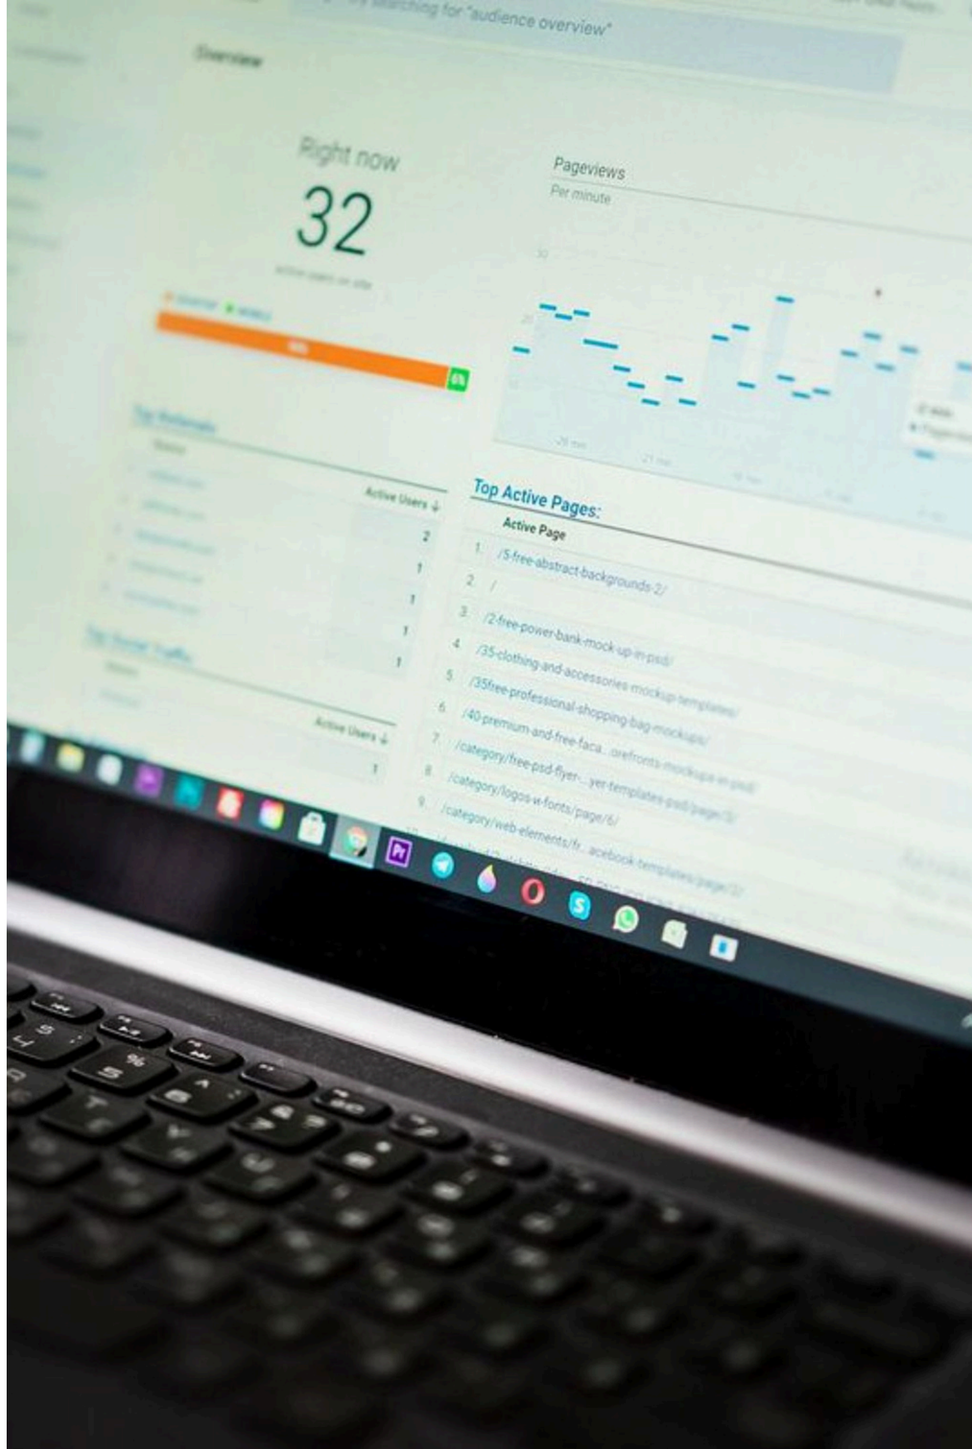

Bheeshma Organics Model

Farmer → Verification → Testing → Platform → Consumer
PLUS: Consumer Data → Demand Analysis → Crop Recommendation → Farmer

Our Six Advantages

- 🌾 Demand Intelligence Engine
- 🌱 Crop Recommendation System
- 🧪 Quality & Residue Testing
- 📜 Certification & Verification
- 🔍 Batch-Level Traceability
- 💰 Farmer-Focused Market Access

> "We don't just sell what farmers grow. We help farmers decide what to grow."

Marketing Strategy: Building Trust, One Customer at a Time

📱 Social Media

Instagram, YouTube, and educational short-form content to build brand awareness and community

👨‍🌾 Farmer Partnerships

Deep ties with FPOs, farmer groups, and organic farming communities for supply credibility

📲 QR Transparency

Customers scan batch QR codes to access farmer, farm, harvest, verification, and testing information

🎁 Referral Program

Customer referral rewards and incentives drive organic word-of-mouth growth

🏙️ Local Launch

Begin in selected urban areas, validate the model, then expand across Maharashtra and India

"Know Your Farmer. Know Your Food."

Our Team: Meet Bheeshma Organics

Yuvraj Vinayak Suryawanshi — CEO & Founder (Roll No. 181)

Business strategy, vision, leadership, investor relations and partnerships

Shantanu Wagh - CTO (Roll No. 189)

Technology, platform development, data systems and demand analytics

10% — Working Capital

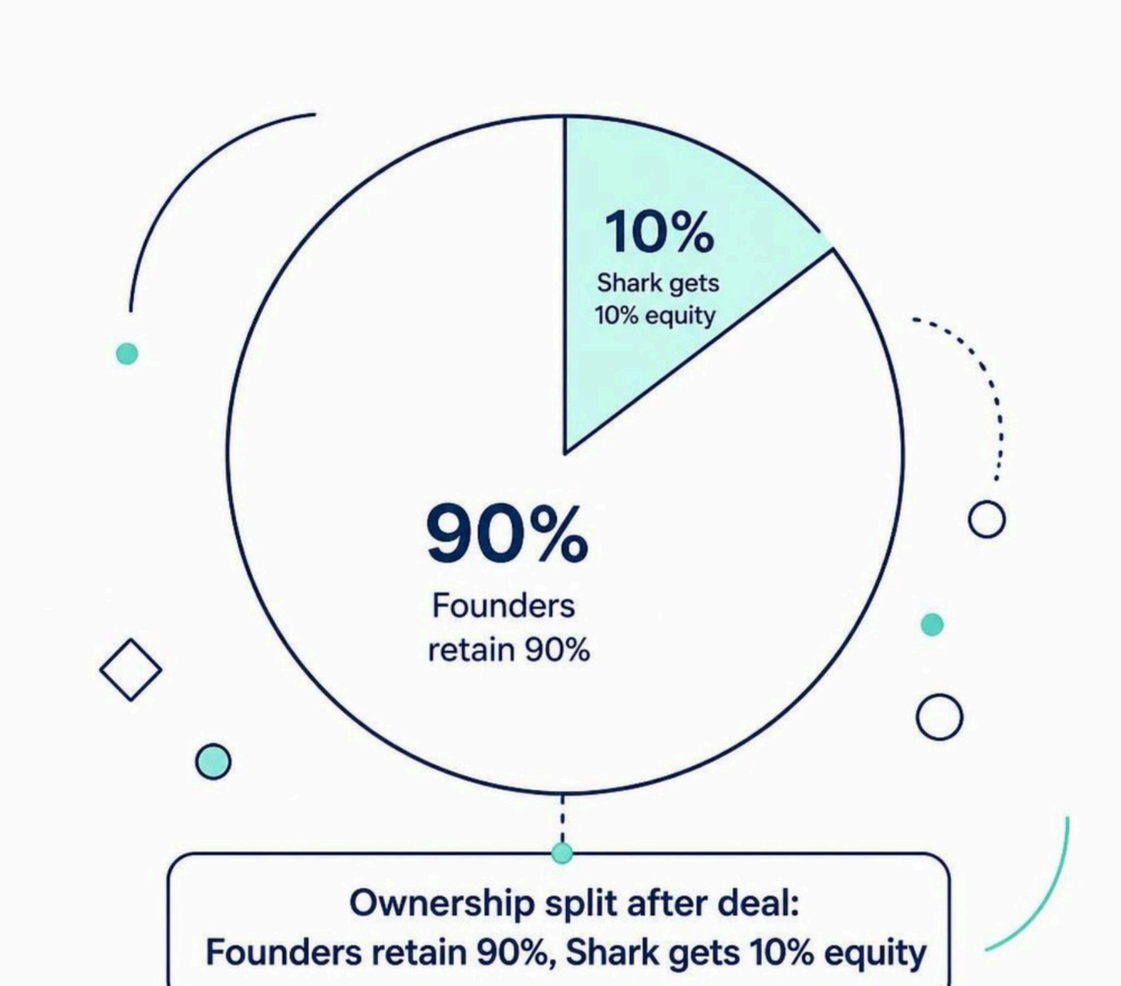

₹2.5 Lakh — Operational runway

THE DEAL + WHY INVEST

Our Offer to the Sharks

Investment	Equity Offered	Post-Money Valuation
₹25L	10%	₹2.5Cr

OWNERSHIP SPLIT

WHY INVEST IN BHEESHMA ORGANICS?

- 🌾 **FARMER FIRST**
  Better market access and demand information for Indian farmers
- 🧪 **TRUST FIRST**
  Verification, appropriate testing, and full traceability
- 📊 **DATA DRIVEN**
  Consumer demand informs future crop planning intelligently
- 📈 **SCALABLE**
  Maharashtra → Major Indian Cities → Pan-India
- 💰 **MULTIPLE REVENUE STREAMS**
  Consumer sales + B2B + service fees + future intelligence services

THE FUTURE OF FARMING STARTS WITH BETTER DECISIONS

BHEESHMA ORGANICS

> ***"Grow What People Need. Buy What You Can Trust."***

For Farmers

We don't want farmers to simply produce more.
We want them to **produce smarter.**

For Consumers

We don't want consumers to simply buy food.
We want them to **know what they are buying.**

The Bridge

Bheeshma Organics connects these two worlds through **trust, technology and data.**

Sharks, we are not asking you to invest only in a platform.
We are asking you to invest in a smarter and more transparent future for agriculture.

THANK YOU

"Grow What People Need. Buy What You Can Trust."
